41 Highly scalable web applications with zero-copy data transfer

Toyotaro Suzumura, Michiaki Tatsubori, Scott Trent, Akimiko Tozawa, Tamara Oandera

April 2009

WWW '09: Proceedings of the 18th international conference on World wide web

Publisher: ACM

Full text available (819 08 KB)

Bibliometrics Downloads (6 Weeks) 20, Downloads (12 Months) 136, Downloads (Overall) 246, Citation Count:

The performance of server-side applications is becoming increasingly important as more applications exploit the Web application model. Extensive work has been done to improve the performance of individual software components such as Web servers and programming ...

Keywords: PHP, fastcgi, scripting, sendfile, web server, zero copy

42 Automated replay and failure detection for web applications

Sara Sprinkle, Emily Gibson, Suresh Sampath, Lori Pollock

November 2005 ASE '05: Proceedings of the 20th IEEE/ACM international Conference on Automated software engineering

Publisher: ACM

Full text available (585 48 KB)

Bibliometrics Downloads (6 Weeks) 14, Downloads (12 Months) 137, Downloads (Overall) 773, Citation Count:

User-session-based testing of web applications gathers user sessions to create and continually update test suite based on real user input in the field. To support this approach during maintenance and beta testing phases, we have built an automated framework ...

Keywords: replay, software testing, test oracles, web applications

43 Clicki: a framework for light-weight web-based visual applications

Donna Gordon, James Nobile, Robert Biddle

January 2005 AUIC '05: Proceedings of the Sixth Australasian conference on User interface - Volume 40

Publisher: Australian Computer Society, Inc.

Full text available (238 61 KB)

Bibliometrics Downloads (6 Weeks) 1, Downloads (12 Months) 13, Downloads (Overall) 247, Citation Count 0

Web application frameworks typically provide little support for graphical web applications such as diagram edit. This restricts applications developed using these frameworks to either very limited interactions, or using technologies that are only

Keywords: framework, visual, web

44 Tracking the changes of dynamic web pages in the existence of URL rewriting

Bin-Jin Zou, Jia-Tai Li, Shun-Ming Tsai

November 2006 AusDM '06: Proceedings of the fifth Australasian conference on Data mining and analysis - Volume 61

Publisher: Australian Computer Society, Inc.

Full text available (402 54 KB)

Bibliometrics Downloads (6 Weeks) 3, Downloads (12 Months) 26, Downloads (Overall) 147, Citation Count 0

Crawlers in a knowledge management system need to collect and archive documents from websites, and also to change status of these documents. However, the existence of URL rewriting mechanism raises a page track problem since the URLs of a pair ...

Keywords: HTTP session, URL rewriting, crawler, string matching
